Relevant Experience

OTORITAS JASA KEUANGAN

Jakarta, Indonesia

Intern, Organization, Human Resources & Culture Department

February 2026 - April 2026

- Digitized and entered 500+ strategic archive documents into an Excel database, improving data availability for organizational forecasting and reporting.
- Developed an interactive Excel dashboard to visualize January-June 2026 metrics and support accurate, real-time departmental monitoring.
- Automated bulk document standardization using Excel-to-Word Mail Merge, reducing repetitive administrative processing.
- Consolidated Accountability Form (FPJ) data for December 2024-2025 and classified incoming official correspondence, strengthening reporting accuracy and audit readiness.

BPJS KETENAGAKERJAAN

Jakarta, Indonesia

Junior Programmer Intern (Full-stack Engineer)

August 2025 - November 2025

- Developed REST API endpoints using Node.js (Express.js) and PHP for internal web applications.
- Designed relational database structures and implemented CRUD operations to support application workflows.
- Integrated frontend components, APIs, and databases; implemented input validation, error handling, and structured API endpoints.
- Collaborated with developers through code reviews and sprint meetings while contributing to backend modules and selected frontend components.

Tools: PHP, Node.js, Express.js, MySQL, Git, Postman, Jira, DBeaver, Figma

Leadership & Activities

INDORELAWAN: GENERASI BEBAS PLASTIK

Bekasi, Indonesia

Group Leader (Volunteer)

June 2024 - August 2024

- Led and coordinated 15 active volunteers in a plastic-waste reduction campaign, managing activities and group communication.

UI STOCK SUMMIT

Depok, Indonesia

Staff Member & Master of Ceremony

2024

- Supported investment education activities and served as Master of Ceremony for a national stock case competition.
