Experiences

Otoritas Jasa Keuangan | Jakarta Selatan, Mampang Prapatan

February 2026 – May 2026

Internship – Departmen Organisasi, SDM & Budaya

- **Managed the digitisation** and data entry of **over 500 strategic archive documents** into an Excel database system with a high level of accuracy to ensure the data was available for the organisation’s forecasting needs.
- **Develop an interactive Excel dashboard to visualise data** for the period January–June 2026, to facilitate the accurate, real-time monitoring of departmental metrics.
- **Improving administrative operational efficiency** through the implementation of the Mail Merge feature (Excel to Word), which significantly speeds up the process of standardising and creating bulk documents.
- Systematically classifying and entering **incoming official correspondence into a spreadsheet, ensuring there are no missing records** throughout the department’s correspondence workflow.
- Consolidate the data from the **Accountability Forms (FPJ)** for the period December 2024–2025 into a spreadsheet, **thereby improving the accuracy of financial reporting** and streamlining the department’s internal audit process.

BPJS Ketenagakerjaan | Jakarta Selatan, Semanggi

August 2025 – November 2025

Internship – Junior Programmer (Fullstack Engineer)

- Learn and use PHP, Node.js (Express.js), and VMS as core technologies for projects.
- Develop REST APIs using **Node.js (Express)** and **PHP**.
- Design database structures and implement CRUD in internal applications.
- Integrate **Frontend ⇄ API ⇄ Database** as required by the system.
- Create **mockups & UI designs** for internal applications using **Figma**.
- Implement input validation, error handling, and API endpoint structures.
- Collaborate with the developer team in **code review sessions and sprint meetings**.
- Contribute to the development of backend modules and some frontend components.

Tools: Git, GitHub Desktop, Postman, Jira, DBeaver
